Take scheduled breaks which we outlined in the exam day plan.ThePM PrepCast exam simulator is a MUST HAVE product that increases the chances of success in the exam. It is a web-based PMP Exam preparation environment. A PMP aspirant can increase his chances of passing the exam by practising with a PMP Exam simulator. PM-Training.net (2000) This is our very own exam created after I actually did the exam so I tried to include as many exam question topics as much as I could. I tried to cover everything from the above study lists so please leave me know what you think in the comments section after you complete the practice exam.iZenBridge Earned Value Test (15Q) As Earned Value Management is one of the most important sections of the exam it is crucial being able to answer any type formula question. Once you can get top results in this 15 question exam you will be ready to answer any EVM question.Oliver Lehmann (75Q & 175Q) Really difficult test but helped me identify new definitions and areas I hadn't previously heard about. Oliver Lehmann was one the first to create a PMP practice exam online and has been teaching project management principles for over 10 years. Oliver also has a LinkedIn group well worth joining.Exam Central (200Q) This was one of my favorite test exams due to the feedback provided. It breaks down answers by process groups so you know where your weakness are to focus on. I only took this exam once due to time constraints but it identified that I was very weak in the initiation process group so I focused more on it and ended up getting Proficient in the area.PM Study (200Q) Great simulator for emulating the actual exam and good indicator on your ability to pass the real exam. You can also get a second free exam by using their referral system and sharing within your networks. (You can easily just create other accounts with the referral link which will give your original account access to the second exam)PM Exam Simulator (200Q) A really good simulator with good feedback. This is a good exam to practice your exam strategy and taking advantage of the good simulator.Head First PMP (200Q) Not the most difficult test but is a complete 200 question exam which helps gauge your level. I did the test with the book and online, the book is a great way of learning fundamentals.Tutorials Point (150Q) Has some repeat questions and not extremely difficult. Tutorial Point also provide a comprehensive study material people find useful which is worth checking out.Further list of PMP practice exams can be found here.PMP Exam PlanThis is the biggest difference and without a doubt the most important thing you can do to help pass the exam - create a test plan so you have milestones breaking up the exam so you know when to take breaks giving your brain rest which is a must for a 4 hour exam. The plan is as follows....08:30am Arrive at Exam Centre08:45am Start Tutorial - All you need to do is click start the system is extremely straight forward to use so you can use this 15mins for writing down all your notes.09:00am Start PMP Exam - Aim to complete 75 Questions10:00am Take Break - go to toilet or get a drink10:05am Restart PMP Exam - Aim to complete 150 Questions11:05am Take Food Break11:10am Restart PMP Exam - Complete remaining 50 Questions12:00am Take Break - go to toilet or get a drink12:05am Start Review - Firstly go through all questions marked01:00pm Submit Exam - Get results within a few minutes on the screenReview all Marked QuestionsDo not take for granted the importance of giving yourself a break it gives you time to gather your thoughts and re-motivate going into next round of questions. When attempting the exam I planned on reviewing all 200 questions but I only ended reviewing the marked questions so I recommend marking any question you have any doubt over.What You Need On Exam DayOne day of exam you need arrive one half hour before your scheduled examination. You must sign in, present your identification and provide your unique PMI identification code that was emailed to you.Notes About IdentificationYou need to present a non-expired government-issued identification. All forms of identification being presented at the testing centre must match your name exactly as it appears on the scheduling notification. Neither PMI nor Prometric will make any exceptions to this policy. Your identification needs to include:English characters/translationYour photographYour signatureIn order to be admitted into the Prometric testing center, you must bring a valid, non-expired government-issued identification. Your identification needs to include:English characters/translationYour photographYour signature (signature not necessary for CAPM and PMI-ACP exams)If your government-issued identification does not display a photograph or a signature, a secondary form of identification may be used, which includes a photograph and/or signature (whichever is missing from the government-issued identification), and your name printed on the identification. All identification must be current (not expired).The following are acceptable forms of government-issued identification:Valid driver's licenseValid military IDValid passportValid national identification cardThe following are acceptable forms of secondary identification:Valid employee IDValid military IDValid bank (ATM) cardThe following ARE NOT acceptable forms of identification:Social Security cardsLibrary cardsNot Abiding To Rules Equals DismissalIf the test centre administrator feels you have broken one of the rules stated below they have the right to dismiss you from the examination.Using or attempting to use someone else to take the test.Failing to provide acceptable personal identification.Having access to, or using, notes or any prohibited aid related to the test.Creating a disturbance (disruptive behavior in any form will not be tolerated; the test administrator/supervisor has sole discretion in determining whether specific conduct constitutes disruptive behavior).Communicating, in any manner, with another person other than the test administrator/supervisor or proctor about the test during the administration, including attempting to give or receive assistance.Attempting to remove scrap paper from the testing room, or tearing the scrap paper.Eating or drinking in the testing room.Leaving the testing room or test center vicinity without permission.Removing or attempting to remove, examination related material, or portions of a test in any format from the testing room.Attempting to tamper with a computer.Engaging in any dishonest or unethical conduct, such as cheating.Failing to follow any other examination administration regulations set forth in PMI Certification Department policies given by the test administrator/supervisor, or specified in any examination materials. PMI's CertificationThis will be reported to the PMI who can cancel your exam scores, bar you from test centres. If your scores are cancelled your fee will not be refunded. For more information check out the official PMI Exam Scheduling Instructions, Study Notes for Exam DayWhen you attempt the PMP exam you will have an opportunity to take a tutorial which is 15 minutes long. Use this time to write up all formulas and study notes you have learned off. I wrote up 3 things which took 14 minutes...All formulas - It is a must to learn off the PMP formulas and at very least learn all the earned value management formulas. It is crucial to be able to read the CPI & SPI to determine if project behind/ahead of schedule or under/over budget. The easiest way to remember this is high is good and low is bad!Process Group Table - This can be time consuming to learn so depends on how much time you have available if it is reasonable for you to learn. I only referenced it maybe 5 times total in the exam to clarify next process or help figure out an input/output. I created a post on how I quickly learnt the process group table and so can you here.Team Building - Understand the different stages of team formation and Maslows Hierarchy of needsPMP Study Guide FAQPMP® certification cost is not the only thing you need to take into consideration when committing to PMP® certification cost. The PMP® requires a lot of effort and should not be considered a quick and easy qualification.The pmp certification requirements are quiet extensive as it requires formal education and a number of years experience. Bachelor's degree or global equivalent: Minimum three years/36 months unique non-overlapping professional project management experience with 4,500 hours spent leading and directing projects. High school diploma, associate's degree or global equivalent: Minimum five years/60 months unique non-overlapping professional project management experience and 7,500 hours spent leading and directing projects.Applying for the PMP® is free but you need to meet the requirements to apply. One of the requirements is having 35 contact hours of project management. I personally had completed a Computer Management Module in Bachelors Degree so didn't have to attend any extra classes to qualify. If you haven't any previous project management education this is going to cost you money. To sit the actual PMP® examination its costs \$405 for PMI® Members and \$555 for Non-Members. To repeat the exam it costs \$275 for Members and \$375 for Non-Members.You need to make sure the course you pick goes towards formal project management education that is recognised by the PMI®. It is well worth checking any previous training with the instructor to see if it qualifies. There is no expiry date or a restricted time frame to have completed education hours.Did This Article Help You?If So Please Comment & Share.
